github.com/rzkylatief | rzkylatief.my.id

SUMMARY

Informatics Engineering graduate (Universitas Putra Indonesia YPTK Padang, 2025) with experience independently building and managing a company website, from design to launch on the official domain. Skilled in front-end and full-stack web development with React/Next.js and PostgreSQL/MySQL databases, and experienced in preparing product requirement documents (PRD) and handover documentation, as well as communicating directly with clients. Ready to handle the development and maintenance of web applications.

SKILLS

Web Development: HTML5, CSS3, JavaScript (ES6+), TypeScript, React, Next.js, Tailwind CSS, Responsive Design, CMS

Backend & Data: Supabase, PostgreSQL, MySQL, REST API, Authentication, CRUD, Basic SEO

Tools & Workflow: Git & GitHub, Chrome DevTools, Vercel, Figma, Postman

Others: PRD & handover documentation, Microsoft Office, client communication

EXPERIENCE

Web Developer — PT Nipon Sarana Konstruksi

May 2026 – Jul 2026 · Jakarta

- Built and launched the company website (7 public pages + an 11-page admin panel), from design to going live on the company's official domain.
- Developed a CMS so the company can update project content, gallery, and homepage independently, without a developer.
- Optimized SEO metadata on every page to improve the company's visibility in Google search results.
- Communicated directly with the client on requirements, revisions, and progress; prepared handover documentation for assets (domain, hosting, database).

Admin Project — PT Nipon Sarana Konstruksi

Mar 2026 – Jul 2026 · Jakarta

- Carried out digital marketing activities for the company's projects.
- Prepared and delivered periodic project progress reports to management.

UI/UX Designer & Product Management Intern — Comentor

Sep 2023 – Jan 2024 · Padang

- Gathered user requirements and contributed to preparing Product Requirement Documents (PRD).
- Created user flows, wireframes, and digital product prototypes using Figma.
- Coordinated with cross-functional teams in product planning.

PROJECT

Real-Time Point of Sale (POS) Application

Next.js, React, Supabase, PostgreSQL

- Built a full-stack POS application with real-time inventory and transaction updates.
- Designed the PostgreSQL database schema and implemented CRUD for products and sales.
- Structured the interface with reusable components and deployed to Vercel.

EDUCATION

Bachelor of Informatics Engineering — Universitas Putra Indonesia YPTK Padang

2020 – 2025 · GPA 3.06/4.00

Thesis: A decision-support (CRM) application for laptop selection using the Analytical Hierarchy Process (AHP) method (PHP, MySQL).

ORGANIZATION

Forum Studi Informatika — Human Resources & Creative Media

Padang

- Served as event lead (chairperson) for the "Tambah Pintar (TAMPAR)" program, overseeing planning, team coordination, and execution.
- Developed Web Design learning materials for the TAMPAR program and served as MC.
- Designed event posters with a focus on visual clarity, readability, and consistent branding.

LANGUAGE

Indonesian (native), English (intermediate)
